

Medium Frequency Electric Melting Furnace For Industrial Melting Applications

Our Product Introduction

for more products please visit us on melt-furnaces.com

Basic Information

- Place of Origin: China
- Brand Name: Huarui
- Certification: patent; national test report; quality management system
- Model Number: to be customized
- Minimum Order Quantity: 1 set
- Price: to be negotiated
- Packaging Details: waterproof
- Delivery Time: 30~45 days
- Payment Terms: T/T; L/C
- Supply Ability: 1000000 sets/year

Product Specification

- China: Made
- Power Saving: High
- Melting Time: Quick
- Durability: High
- Failure: Low
- Power Consumption: Low
- Reliability: High
- Maintenance: Low
- Highlight: **Electric Iron Casting Furnace,
Medium Frequency Industrial Melting Furnace**

Product Description:

Iron Melting Furnace is designed for medium frequency electric melting furnace application, which is made with high durability and low maintenance. It features low power consumption and high power saving, which is perfect for industrial production. It is made in China, which ensures perfect quality and safety. This electric furnace is capable of melting various kinds of metal materials, such as iron, steel, zinc, brass and aluminum. With this Iron Melting Furnace, it is easy to control the temperature and pressure, and the melting process will be done quickly and precisely. It has a wide range of applications, like casting, smelting, investment casting, and surface treatment. This Iron Melting Furnace is a reliable and efficient melting tool, and it is ideal for industrial production.

Features:

Product Name: Iron Melting Furnace
Power Saving: High
Reliability: High
Failure: Low
Safety: High
Melting Time: Quick
Technology: Medium Frequency electric melting furnace

Technical Parameters:

Induction melting furnace power supply, thyristor type serial-connected resonance medium frequency type, (2 tons), as for other data of other capacity (tons), please check other pages in our this website.

Characteristic	Description
Type	GW2.0-1400-0.5S
Rated capacity (T)	2.0
Rated power (KW)	1400
rated frequency (HZ)	500
power supply (V)	575
inlet current (A)	1400
medium frequency voltage (V)	2800
load type	One power supply cabinet drives one induction furnace
adapted transformer (KVA)	1600

Applications:

Huarui's Medium Frequency electric melting furnace for iron is known for its high power saving, high safety, low power consumption, high reliability, and low failure. It has been certified by patent, national test report, and quality management system. The minimum order quantity is 1 set and the price is to be negotiated. The packaging is waterproof and the delivery time is 30-45 days. Payment terms are T/T and L/C. Huarui can supply up to 1,000,000 sets per year.

Support and Services:

Iron Melting Furnace Technical Support and Service

We are committed to providing our customers with the highest quality of Iron Melting Furnace products, along with the best technical support and service. Our team of experts is available to assist you with any questions or issues that may arise. We offer both on-site and remote technical support, as well as installation and maintenance services.

Our technical support team is well-trained and knowledgeable in all aspects of Iron Melting Furnace products. We can provide troubleshooting advice, answer product questions, and provide detailed instructions for installation and maintenance. We are also available to assist with repairs, if necessary.

We have an experienced team of technicians who can perform on-site installation and maintenance services. They are familiar with the process of installing and maintaining Iron Melting Furnace products, and they can provide quick and efficient service. We are dedicated to providing our customers with the best possible technical support and service for Iron Melting Furnace products. We will do everything we can to ensure that your experience with our products is a positive one.

Packing and Shipping:

Packaging and Shipping for Iron Melting Furnace

The Iron Melting Furnace will be securely packaged for safe shipping. The package includes:

Furnace

User Manual

Power cord

Thermocouple

Crucible

Fire-resistant gloves

The package will be shipped with appropriate tracking information and insurance. If you have any questions or concerns about shipping, please contact us.
