

Pneumatic Refractory Lining Vibrator For Induction Furnace

Our Product Introduction

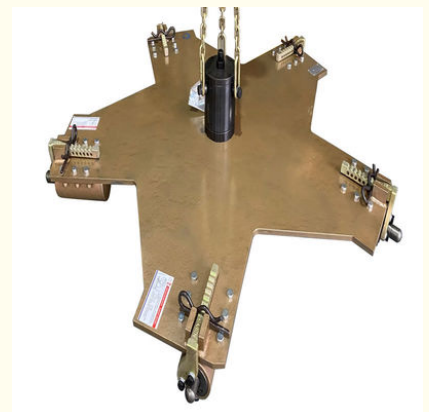

Basic Information

- Place of Origin: China
- Brand Name: Huarui
- Model Number: customized
- Minimum Order Quantity: 1 set
- Price: to be negotiated between two parties
- Packaging Details: waterproof or customized
- Delivery Time: 5~8 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram, Western Union
- Supply Ability: 10000001 sets/year

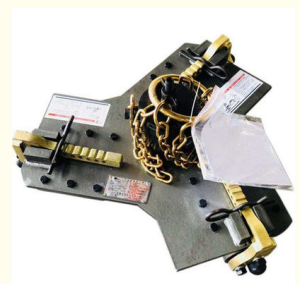

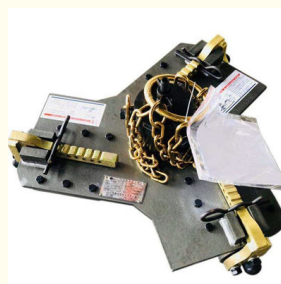

Product Specification

- Highlight: Induction Furnace Refractory Lining Vibrator, Induction Furnace Pneumatic Refractory Lining Vibrator

Product Description

Pneumatic refractory lining vibrator for induction furnace has the following advantages:

1. Prolong life of refractory lining by 10% ~30 % compared to manual ramming because lining can be rammed firmly and impacted and uniform by our pneumatic rammer vibrator
2. Greatly Save labor cost , manual ramming work need three or five people to finish this work, however, for our pneumatic vibrator , only one worker can finish this work.
3. Our pneumatic refractory lining vibrator adopt the most advanced technology serving too many customers

Pneumatic refractory lining vibrator includes two rammer type, three hammer type, four hammer type and five hammer type, automatic adjusting type and manual adjusting type.

The followings is the data of two hammer type , please check other pages for three hammer type, four hammer type and five hammer type

Type	KLQ -Z-E Manual Type	QZX2 Automatic Type
Hammer quantity	2	2
Air Consumption (single hammer m ³ /min).	0.3	0.3
Designed Pressure Mpa.	0.5~0.7	0.6~0.8
Ramming force N	1270~1780	1370~1880
Vibration frequency Hz	195	195
Adjusting range mm	0~230	0~220
